ISO 9001 Certified

Systems for Analysis

CERTIFICATE OF CONFORMANCE

As an ISO 9001 certified company we are expected to meet the most rigorous international quality system standards. The scope of our certification is the design, manufacture, delivery, and service of systems for analysis, including all instruments and chemicals manufactured by Hach Company.

This instrument works with other Hach products to provide you with accurate, reliable results. By using Hach's prepared reagents with Hach methods and instrumentation, you will get the best performance from the analysis system.

We certify that the product described herein was tested in accordance with our quality system procedures and, to the best of our knowledge, conforms to published specifications.

Test equipment used for the verification of Hach manufactured instruments is calibrated using standards traceable to National Institute of Standards and Technology (NIST) standards. Where such standards do not exist, the basis for calibration is documented.

Hach Company
